

Convenience and Simplicity for Your FSA Participants

The **TASC Card** gives your FlexSystem Participants a most convenient way to pay for their eligible healthcare and/or dependent care expenses. When the Card feature is available, employers see their Plan participation and contributions increase by an average of 25%, which leads to increased savings on payroll taxes!

FlexSystem Made Easy

Rather than a Participant paying out-of-pocket and waiting to be reimbursed, the TASC Card purchase is automatically deducted from their FlexSystem FSA balance and paid directly to the authorized healthcare or dependent care provider.

Minimize the need to submit a claim and wait for reimbursement!

The TASC Card is accepted for eligible FSA purchases at any merchant or supplier who accepts VISA.

MyCash Account Reimbursement Option

With the **MyCash** feature, FlexSystem Participants have the option to auto-deposit their claim reimbursement(s) into a separate MyCash account. That money can then be accessed with their TASC Card for non-FSA purchases, acting as a cash card. This unique new feature virtually transforms the TASC Card into a multi-purpose payment tool for participants!

- Replaces the need for reimbursement checks (saving time and paper).
- Works like a cash card at any VISA retailer / access cash via the ATM network.
- Integrated with MyTASC and works with existing FlexSystem Benefit Accounts.

Value-Added Feature with FlexSystem

The TASC Card is included in your FlexSystem Plan at no additional cost to you or your employees. Cards are issued upon enrollment and are good for up to three years. Participants may also request one additional TASC Card for a spouse or dependent at no additional cost.
